INDEX.

A

Abdomen, fibro-nucleated tumour on the, 508
Abortion, 393; with albuminuria and convulsions, 511
Abortive career, an, 114
Abscess, chronic gluteal, 159; large external thoracic, ib.
Abscesses, practical clinical remarks on, 181; on the use of M. Chassaignac's drainage-tubes in the treatment of, 211
Abuse of a public charity, 599
Academy of Medicine, Paris, the, and its prizes, 13
Accident, fatal, to a medical practitioner, 99
Acetabulum, stellar fracture of the, 109
Achorion Schönleinii, on the Identity of, and other Parasites, with Aspergillus Glaucus, and on the Development of the Yeast Plant (review), 161
Acid nitrate of silver, the advantages of a solution of, 380
Acton, Mr., unmarried wet nurses, 174
Adams, Mr. J., lithotomy in children, 77; cases under the care of, 213, 629
Adder, on the poison of the, 522
Addison, Dr., case under the care of, 317
Adulteration, how it ought to be punished, 106; of food, bill for preventing the, 641
Advertising, unprofessional, 101
African explorers, health of the, 139
After-pains, on, 130
Air-passages, a Treatise on Diseases of the (review), 266
Albuminuria, various stages of, 159
Alcoholic beverages, treatment of chronic disorders resulting from long-continued excesses in, 217; Intoxication, chronic, on the treatment of, 346
Alderson, Dr. J., practical clinical remarks on pericarditis and effusion into the pericardium, 383
Alexander, Mr., death of, 126
Algiers, medical school of, 125
Alkaloids, solubility of, in chloroform, 823
Allarton, Mr. G., the median operation of lithotomy, 122
Allarton's operation for stone, 355; report of a case of, 54
All Saints, Poplar, mortality of the parish of, 125
American enterprise, 46
Ammonia, treatment of scarlatina by, 200
Amputation of the leg, a practical point in, 57
Amputations, 341; employment of rectangular flaps in, 158; upon the causes of death after, 264; statistics of, 521
Amusement, harmless, 24
Anæsthesia, galvanic, 34; local, 110; electro-chemical, 159, 169, 201, 227; an Examination of the Question of (review), 563; the influence of, on the results of amputations for diseases of bones and joints, 597
"Anatomy Act," the, 174, 227, 251, 304; and supply of subjects, 247
——, on the relation of, to physiology and pathology, being a sequel to "The Life and Labours of Xavier Bichât," 479
—— and Physiology, the Cyclopædia of (review), 367, 512
Anencephalian monster, description of an, 511
Aneurism, recent axillary, in a healthy man, 54; axillary, in a soldier, 55; sequel to a case of, in which ligature of the subclavian artery was performed, 158; of the right popliteal artery, on a case of, terminating in recovery without ligature of the vessel, 314; compression in, 479; of the arch of the aorta, projecting between the second rib and the sternum, 629
Animal substances, preparation for preserving, 561
Anomalous disease, an, 389
Anus, artificial, 219
Aorta, aneurism of the, 540; aneurism of the arch of the, 557
Aphonia, cured by fright, 47
Apothecaries' Hall, pass-lists of the, 74, 98, 124, 150, 177, 202, 224, 252, 278, 305, 330, 358, 379, 403, 427, 449, 472, 494, 514, 540, 574, 591, 625, 640; the so-called "modified" examinations at, 382
—— licence, the, 205
—— Society, what is the use of the, 111, 163
Appointments:—Mr. C. B. Rendle, 20; Mr. J. Ford, ib.; Dr. Jas. Black, 69; Mr. Spratly, ib.; Dr. J. R. Taylor, ib.; Mr. W. R. Tate, 125; Mr. R. Craven, ib.; Mr. Parrett, ib.; Dr. Briscoe, ib.; Dr. Grully Hewitt, 176; Mr. Weight, ib.; Mr. Barford, ib.; Mr. J. Walker, 203; Mr. W. H. Folker, ib.; Mr. J. Sharman, 337; Dr. Barnes, 380; Dr. M'Cann, ib.; Dr. Adam Beatey, ib.; Dr. Wm. Italy, 429; Dr. H. S. Halahan, ib.; Dr. Jephson, 440; Dr. Edwin Andrews, 473; Mr. Minter, 497; Mr. P. W. Jones, ib.; Mr. J. P. Scowcroft, ib.; Mr. G. R. Turner, 524; Mr. L. J. Monteith, 574; Dr. Clapton, 575; Dr. Whitley, ib.; Dr. Paik, 598; Mr. W. S. Savory, 625; Dr. McAndrew, ib.; Dr. Guy, ib.; Dr. Waller, 639; Dr. Bond, ib.; Dr. Thomas Barrett, ib.; Mr. J. D. Scowcroft, ib.; Dr. W. L. Gibson, ib.; Mr. J. White, ib.
Armies, royal and Indian, the medical service of the, 329, 353, 378
Army, medical service, promotion in the, 73; medical duties in the, 246; the, *versus* Indian medical service, 301; medical officers of the, 473
Arm presentation, report of a case of, 535
Arnott, Dr. Jas., statistics of amputations, 493; the effect of chloroform on the severer operations, 548
Arsenic, tests for, in chlorate of potash, 546, 571
Arsenical paper-hangings, 4, 70
Arsenite of copper, a case of poisoning by, 237
Arthritis, chronic rheumatic, 82
Asphyxia, the Marshall Hall method of treatment in, 102
Assistants, proposed society of, 147
Association of Medical Officers of Asylums and Hospitals for the Insane, meeting of the, 233
Australia, projected medical reform in, 624; success of the Marshall Hall method in Tasmania, ib.; public drinking fountains in, ib.; prostitution in, ib.; editorial conscientiousness in, 625
Austrian soldiers, attack on a professor in his chair by, 599
Ava, the king of, 99
Axillary artery and median nerve, wound of the, from a fall through a skylight, 630

B

Bachelors of medicine under the title of "doctor," 280
Bain, Dr. W. P., poisoning by chloroform, 400
Baker, Mr. W., and the coronership for the eastern division of Middlesex, 244
Bakewell, Dr. R. Hall, detection of callus in ununited fractures, 79; on a case of retroversion of the uterus, and retention of urine, 363
Baly, Dr., resignation of, 575
Banks, Dr. J. T., On Nervous Disorders and Nervousness, lapsing into Melancholia and Insanity (review), 442
Barium, chloride of, report of a case of poisoning by, 213.
Barker, Dr. T. H., On the Hygienic Management of Infants and Children (review), 442; testimonial to, 179
Barnes, Dr., case under the care of, 629
Barracks and military hospitals in hot climates, notes on, 530
Barwell, Mr. R., remarkable circumstance occurring in a case of strangulated hernia, 593
Basham, Dr. W. R., on the identity of scarlatinal dropsy and acute morbus Brightii, 283
Bayswater, formation of a branch Medical Registration Association in, 591
Beale, Dr. L. S., Archives of Medicine (review), 418
Beard, a plea for the, 75
Bed-room vase, patent, 74
Bed-sores, treatment of, 34
Beeton, Mr. S. O., Dictionary of Universal Information (review), 590
Behrend, Mr. H., on the employment of extract of belladonna in the treatment of irritable bladder, 630
Belfast Medical Society, anniversary dinner of the members of the, 641
Bell, Mr. Jacob, death of, 627; expression of sympathy and condolence to the family of, 640
Bengazi, the pest of, 38, 357, 600
Bennet, Dr. H., Ischyi, its waters and baths, and the way to it, 104
Bennett, Dr. J. H., Clinical Lectures on the Principles and Practice of Medicine (review), 589
——, Dr. Risdon, case under the care of, 459
—— gang, the charge of conspiracy with the, 380
"Bermetts," the, again, 595
Berlin, ophthalmic practice in, 599
Bigg, Mr. T. H., On Localised Movements (review), 321
Birth extraordinary, 203
Births, marriages, and deaths, 21, 47, 75, 126, 150, 229, 279, 306, 357, 380, 451, 497, 575, 627
Bishop, Dr. E., report of a case of extensive emphysema occurring during labour, 412; the profession at the Cape, 640
"Black doctor," the, and the Parisian medical press, 397
Blackwell, Dr. Elizabeth, physiological lectures by, 273
Bladder, puncture of, through the rectum, 32; the Irritable, its Causes and Curative Treatment (review), 321; removal of sixteen calculi from the, 538; irritable, on the employment of extract of belladonna in the treatment of, 630
Blick, Mr. T. C., substitute for a female catheter, 333
Blindness, total, after an attack of fever, 618
Blood, on transfusion of, its history and application, 265
Bloodletting, on the real value of, in acute disease, 368
Bloodvessels, on the shape of transverse wounds of the, in relation to their physiology, 311
Blyth, Dr. J., Liebig's Letters on Modern Agriculture (review), 590
Bogg, Mr. E. R., on a case of spontaneous evolution, 30
——, Mr. J. S., examinations for honours at the University of London, 333
Baldwin, Colonel, services of, to the profession, 518
Bone, Dr. G. F., on a case of aneurism of the right popliteal artery, terminating in recovery without ligature of the vessel, 314
Bone, cases of refracture of, 116
Bonnet, M., monument in memory of, 20
Borham, Mr. W. H., tracheotomy in diphtheria, 591
Bourbon, the Isle of, cholera at, 589
Bowel, inflamed, 217
Bowman, Mr., case under the care of, 133
Boxman, Dr., in Paris, 125
Bradford poisonings, deaths by the, 151
Brain, gangrene of the, 34; cholesteatomatous tumour of the, 320; disease at the base of the, attended by dysphagia, ptosis, &c., ib.
Bride, Mr. J., the gold medals at the London Hospital, 597, 638
Bright's disease, and stone in the bladder, 508 of the kidney, on the forms and stages of, 348
Brinton, Dr. W., Croonian lectures on intestinal obstruction, 431, 453, 475, 501, 526, 551; the Diseases of the Stomach, with an Introduction on its Anatomy and Physiology (review), 369
British and Foreign Medico-Chirurgical Review; a Quarterly Journal of Practical Medicine and Surgery (review), 109, 418
—— Association, the, 47
—— Medical Association, meeting of the Lancashire and Cheshire Branch, 627

British Pharmacopœia, remarks on the, 434
Brodhurst, Mr. B. E., On the Restoration of Motion by Forcible Extension and Rupture of the Uniting Medium of Partially-Anchylosed Surfaces (review), 94
Bronchocele, serous, case of, treated by puncture, 536
Bronchotomy, inefficacy of, in diphtheria, 642
Brown, Dr. F. J., testimonial to, 228
——, Mr. I. B., communication relative to the case of Harper *v.* Lamacraft, 42
——, Mr. R., procidentia uteri, 153
Brown-Séquard, Dr., possibility of repair and of return of function after a partial or complete division of the spinal cord in man and animals, 96; the lectures of, 271; lectures of, in Dublin, 549
Brussels, health of, 357
Bryant, Mr., case under the care of, 56
Buckland, Mr. F. J., John Hunter's coffin, 252
Budd, Dr., case under the care of, 6
Bullets, the passing wind of, 115
Burns' centenary, the, 125
Burrows, Dr., cases under the care of, 158, 288
Bury, public baths for, 575
Butcher, Mr. R. G. H., Reports in Operative Surgery; Series the Third (review), 417
Buzzard, Dr. T., a new trick: caution, 179

C

Cacography, medical, 64
Calculi, sixteen, in a single bladder, 536
Calisthenic Exercises, Cost's System of, for the Patent Elastic Calisthenic Chest Expander and other Instruments invented by him (review), 563
Callus, detection of, in ununited fractures, 70
Cambridge, medical reform at, 223
Camomile, the active principle of, 525
Canadian murder, the, 516
Cancer, relief in, 49, 76, 102; encephaloid, of the testicle and kidney, 57; on a case of encephaloid, affecting the testicle, 91; notes of a case of, of the rectum and uterus, in which abortion was produced, 160; the cure of, in Paris, 177, 200; a contribution to the statistics of, collected from the records of the Middlesex Hospital, 291; epithelial, occurring in the cicatrix of a burn on the arm, 316; statistics of, 327; of liver, peritoneum, and supra-renal capsule, 459; encephaloid, of the lung and anterior mediastinum, ib.; epithelial, of the tongue and throat, 508; chimney-sweepers', 612
—— Hospital, donation to, 74; laying foundation stone of, 574
Cancerous Diseases, Observations on the History, Pathology, and Treatment of (review), 33
Canton, Mr., case under the care of, 133
Cape, the profession at the, 640
Carpenter, Dr. W. B., regeneration of the spinal cord, 59
Castration, operation of, 81; Mr. Holthouse's case of, 381; on the operation of, 401; and mutilation, 436
Catheter, female, novel substitute for, 251
Cattle, inoculation of, 496
Caution: a new trick, 179
Celestials, medicine amongst the, 568
Cellular tissue, sedative injections into the, 345
Certificate, a, on trial, 374
Cervix uteri, a convenient mode of treating vaginitis and superficial inflammation of the, 591
Cesspool, the, the great source of disease, 167
Chambers, Dr., appointment of, as physician in attendance on the Prince of Wales, 46
Channel, the Islets of the (review), 309
Charitable institutions, payment of medical officers to, 471
Chassaignac, M., Leçons sur le Traitement des Tumeurs Hæmorrhoidales à la Méthode de l'Ecrasement Linéaire (review), 109
Chatham, proposed army medical school at, 148, 297
Chemical Analysis, a Manual of Qualitative (review), 33
Chest, a man's, transfixed, 45; on some of the effects of primary cancerous tumours within the, 560; A Treatise upon Penetrating Wounds of the (review), 562
Chloroform, and its safe administration, 37; deaths from, 194; death from the inhalation of, in Paris, 202; inhaler, Weiss's new, 267; the improved administration of, 273; poisoning by, 400; the effect of, on the severer operations, 548; and its dangers, 567
Cholera, new hygrometric theory of, 299; the temperature and the breath in, 326
Chorea, strychnine in, 345; associated with dementia, 361
Chuckerbutty, Dr. S., a Discourse on Native Education in India (review), 443
Church, Mr. A. H., Manual of Qualitative Chemical Analysis (review), 33
City, sanitary condition of the, 600
Clark, Mr. Le Gros, cases under the care of, 54, 158

CLINICAL RECORDS.

Hydatid cyst of the thigh, 3—Splintered fracture of the humerus, ib.—Condy's fluid in ulcerated surfaces, ib.—Seton-threads in hydrocele, ib.—Puncture of the bladder through the rectum, 32—Fungoid ulcerations of the leg, ib.—Extensive rhinoceras nævus, ib.—Fracture of the femur extending into the knee-joint, 33—Encephaloid cancer of the testicle and kidney in a young child, 56—Hysterical pain of the knee, 57—Morbus Brightii, with disease of bloodvessels and threatened gangrene, ib.—Fracture of the humerus, the elbow being excised some years before by the late Mr. Liston, ib.—A practical point in amputation of the leg, ib.—The radical cure of reducible inguinal hernia, 82—Resection of the knee, ib.—Chronic rheumatic arthritis, ib.—Irritable ulcer of the rectum, 83—Stricture of the rectum, ib.—Subcutaneous division of the veins in varicocele, ib.—Lithotrity in a young man, with a mixed calculus, 108—Stellar fracture of the acetabulum, and other injuries, from a fall, ib.—Long-standing necrosis of the trochanter, 133—Nævus in the orbit and on the leg, ib.—Tumours of the ovary, 134—Various stages of albuminuria, 159—Chronic gluteal abscess, ib.—Large external thoracic abscess, ib.—Suspicious tumour of the thigh, 160—Ligature of the subclavian artery, 186—Paracentesis thoracis with a newly-invented trocar and canula, ib.—Rapid recurrence of scirrhus of the mamma, ib.—Idiopathic ulceration of the throat, ib.—Epithelioma of the hand, the face, and the lips, ib.—Cases of necrosis, 214—Muriate of ammonia in neuralgia, 215—Nasal polypi, ib.—Recurring fibro-plastic tumour; partial resection of the hand, ib.—Annular ulcer of the leg from a burn, ib.—Lithotomy and lithotrity, 290—Tumour involving the urethra and vagina, ib.—Non-descent of the testes, and strangulated hernia, ib.—Disease of the leg and ankle; amputation at the latter, ib.—Amputation for erysipelatous inflammation, 317—Tumour over the right alar fibro-cartilage, 318—A needle mistaken for a splinter of bone, ib.—Stricture of the œsophagus from carcinoma, ib.—Operation for hare-lip on an infant aged ten days, ib.—Amputations, 341—Mammary tumours, ib.—Iodine injections in hydrocele, ib.—Strangulated umbilical hernia; removal of the sac and adherent omentum with success, ib.—Rupture into the duodenum of an aneurismal tumour of the abdominal aorta, 366—Vesical calculi, ib.—Compound fracture of the humerus from machinery, 367—An unexcisable knee-joint, ib.—Double popliteal aneurism; ligature of both femorals, 389—An anomalous disease, ib.—Painful subcutaneous tubercles, ib.—Sebaceous cyst in an old cicatrix, ib.—Fibro-cellular tumour of the thigh, ib.—Partial anchylosis of the shoulder; forcible rupture of the uniting medium, ib.—Internal urethrotomy, 414—Persistent strangulated hernia after apparent reduction; operation; recovery, ib.—Pudendal maladies, ib.—Invagination of the scrotum for varicocele, ib.—Retroversion of the uterus causing retention of urine, 439—Retention of urine treated by morphia and carbonate of soda, ib.—Erythema nodosum, ib.—Tumour in the palatine arches, ib.—Amputation through the knee-joint for epithelial cancer of the leg, 440—The radical cure of strangulated hernia, ib.—Tracheotomy in diphtheria, 459—Chronic mammary, or adenoid tumour of the breast, with hereditary taint of cancer, 490—Splitting up strictures, ib.—Amputations of the thigh and leg, ib.—Wütz'er's operation as a palliative measure, ib.—Bronchitis and typhus, ib.—Trephining the tibia for long-continued pain, 482—Phlebolites and varix, ib.—Amputation of the thigh after excision of the knee-joint, 483—Neuralgia of the sciatic nerve, from a fatty tumour, cured by removal of the latter, 508—Epithelial cancer of the tongue and throat, ib.—External epitheliomal ulcerations, ib.—Fibro-nucleated tumour of the abdomen, ib.—Bright's disease, and stone in the bladder, 509—Bead sutures in hare-lip, ib.—Removal of the upper jaw for fibro-plastic disease, 537—Resection of joints, ib.—Necrosis of bones of the tarsus, ib.—Fall from a tree, breaking the arm and lacerating the scalp, ib.—Wound of the throat by a tobacco-pipe; ligature of the carotid artery, 559—A group of wens, 560—A broken shoulder-blade, ib.—Double hernia; strangulation in one sac; cured by operation, ib.—Minor miscellanies, ib.—Gonalgia in the left leg, and compound fracture in the right, with subsequent necrosis, 585—Internal division of irritable stricture, ib.—The lateral operation for stone, 586—Sixteen calculi in a single bladder, ib.—Radical cure of hernia by Wood's operation, ib.—Staphyloma from various ophthalmia, ib.—Destruction of the hand and foot, 611—Fibro-plastic tumour of the neck, ib.—Fracture of the neck of the femur; absence of some of the usual symptoms, ib.—Chimney-sweepers' cancer, 612—Fall from the top of a house, and impalement on the area railings, ib.—Wound of the axillary artery and median nerve, from a fall through a skylight, 630—Non-descent of the testis associated with strangulated hernia; operation, ib.—Fistula, hernia, purpura, and variola, in the same patient, ib.

Cock, Mr., case under the care of, 56; the case of Fresco *v.* Jones, 403
Coghill, Dr. J. G. S., report of a case of successful operation for vesico-vaginal fistula, with remarks, 455
Colchester Medical Society, meeting of, 451
College examinations and dissections, 205
Commission of Oyer and Terminer, Dublin: obtaining a diploma under false pretences, 198
Comparative statistics of mortality, 451
Condie, Dr. D. F., a Practical Treatise on the Diseases of Children (review), 267
Condy's fluid in ulcerated surfaces, 8
Congenital fissure of the right cheek, 536
Conspiracy, extraordinary charge of, 99
Consumption, Hospital for, lecture for the benefit of, 627
Continued fevers, prevalence of, in the metropolis and other parts of the United Kingdom during the year 1858, 337
Contrast, a sanitary, 63
Convulsions, 217
Cooke, Mr. Weeden, the "cure" of cancer, at Paris, 200; statistics of cancer, 327
Cookery and diet, 86
Cooper, Mr. W. W., on the Wounds and Injuries of the Eye (review), 293
Cork Medical Protective Association, 261
Corner, Dr. M., opium in epilepsy, 401
Coroner, a new medical, 380; for East Middlesex, vacancy in the office of, 270
Coroners and justices of the peace of England and Wales, the, 348
Coronership, a candidate for a, 576
Corsican medical profession, death of the Nestor of the, 640
Corvisart, Dr. L., on an imperfectly-known function of the pancreas — namely, digestion of nitrogenous food; with comparative experiments on gastric and intestinal digestion, followed by a few clinical deductions, 209; the experiments of, 304; some remarks upon the criticisms that have recently been passed upon the digestion of albuminous bodies by the pancreas, 605
Cost's System of Calisthenic Exercises, for the Patent Elastic Calisthenic Chest Expander and other Instruments invented by him (review), 563
Coulson, Mr., cases under the care of, 31, 340
County courts, unequal justice of our, 526; the uncertainty of, on medical men's claims, 599
Court of Queen's Bench: Regina *v.* Storrar, 149, 634

Practical Clinical Remarks on the Surgical Diagnosis of Difficult Deglutition. Delivered at University College Hospital, 309
Practical Clinical Remarks on Diseases of the Tarsus. Delivered at University College Hospital, 603

HENRY, MR. MITCHELL:
Clinical Lecture on Strumous Ophthalmia. Delivered at the Middlesex Hospital, 78

LEE, MR. H.:
Clinical Lecture on Syphilitic Inoculation, 103

RANKING, DR. W. H.:
Lecture on Diphtheria. Delivered at the Norfolk and Norwich Hospital, 27, 51

SEE, MR. F. C.:
Practical Clinical Remarks on Abscesses. Delivered at St. Bartholomew's Hospital, 161.
Practical Clinical Remarks on Cases of Compound Fracture, and other Injuries about the Shoulder-joint. Delivered at St. Bartholomew's Hospital, 407

SOLLY, MR. S.:
Clinical Lecture on Partial Amputation of the Hand. Delivered at St. Thomas's Hospital, 1
Practical Clinical Remarks on Excision of the Knee-joint. Delivered at St. Thomas's Hospital, 335

WATSON, DR. EBEN:
Practical Clinical Remarks. Delivered at the Royal Infirmary of Glasgow.
On vesico-vaginal fistula, 233
On Pirogoff's operation, 577

Lee, Dr. E., award of gold medal to, 574
——, Mr. H., case under the care of, 214
Leg, fungoid ulcerations of the, 32; and ankle, disease of the, 290; annular ulcer of the, from a burn, 215; compound comminuted fracture of the, 387
Legitimate medicine and quackery, 153
Lemieops, the, 151
Lepra, inveterate, successful treatment of, 261; tuberculosa, 437
Letheby, Dr., tests for arsenic in chlorate of potash, 546, 571
Lever, Dr., death of, 46
Lexicon, an Expository, of the Terms, Ancient and Modern, in Medical and General Science, including a complete Medical and Medico-Legal Vocabulary, &c. &c. (review), 109
Liebig, Professor, on the agricultural importance of sewage, 99

A MIRROR OF THE PRACTICE OF MEDICINE AND SURGERY IN THE HOSPITALS OF LONDON.

CHARING-CROSS HOSPITAL.—Traumatic tetanus from a lacerated wound of the forearm and radial artery; treatment by belladonna and chloroform; fatal result, 133—Several cases of inveterate lepra successfully treated; importance of regulated diet, without meat and stimulants, 262—Excision of the ankle-joint, in a child, for extensive disease; recovery, with a useful foot, 305—Epilepsy and amaurosis from a tumour beneath the occiput; removal of the growth, with good results, 584
DREADNOUGHT HOSPITAL.—Two cases of diphtheria, followed by recovery, 629
GUY'S HOSPITAL.—Epithelioma of the right leg and tibia; amputation; recovery, 56—Epithelioma of the os calcis and integument over it; amputation; recovery, ib.—Stricture of the œsophagus, probably associated with carcinoma, in a man aged seventy-one, 185—Stricture of the œsophagus in a child, from swallowing a corrosive fluid; threatened starvation; gastrotomy, 317—Elephantiasis Græcorum, or lepra anæsthetica, 437—Lepra tuberculosa (leontiasis of the ancients), with partial anæsthesia, ib.
HOSPITAL FOR CONSUMPTION, BROMPTON.—Four cases of thoracic aneurism, two proving fatal, 558
KING'S COLLEGE HOSPITAL.—Enormous hydatid tumour of the omentum, attached to the liver, proving fatal; interesting autopsy, 6—Medullary tumour of the clavicle; successful removal, with the outer half of the bone, 132—Fatty tumour between the head of the humerus and muscles of the shoulder in a child; and another in the neck of a woman for twenty years; successful removal, 339—Case of serous bronchocele treated by puncture, 536
LOCK HOSPITAL.—Stricture of the urethra for eighteen years; Syme's operation of external division, 214
LONDON HOSPITAL.—Compound fracture of the skull; use of the trephine; death on the seventeenth day from rupture of the renal vein, 7—Strangulated inguinal hernia; descent of intestine in a distinct sac behind a large hydrocele, 213—Oblique inguinal hernia in a female; sac adherent to gut, ib.—Irreducible omental hernia treated by the air-pad and abdominal bandage, 414—Congenital fissure of the right cheek; operation; recovery, 536; aneurism of the arch of the aorta, projecting between the second rib and the sternum, 629
MIDDLESEX HOSPITAL.—The use of the drainage tubes of Chassaignac in suppurating cavities, 8—Primary syphilis, followed by suppurating buboes and secondary eruption, 159—Epithelial cancer occurring in the cicatrix of a burn on the arm, necessitating amputation at the shoulder-joint; recovery, 316—Small carcinomatous tumour at the margin of the mammary gland; removal by operation, 585
ROYAL FREE HOSPITAL.—Erysipelas of the face, ending in a sloughing abscess, laying open the facial artery, 31—Case of syphilitic gangrene of the mouth, with impending suffocation; operation of laryngotomy; recovery, 213—Compound

fracture of the leg, with protrusion of the fibula and extensive sloughing of the soft parts; recovery with an excellent limb, 413—Triple fistula in ano; successive operations with Gant's "concealed fistula knife;" recovery, 536

St. BARTHOLOMEW'S HOSPITAL.—Axillary aneurism of seven months' growth in a soldier; deligation of the subclavian artery in the third part of its course; death on the third day, 55—Chronic pemphigus, recurring after a cure effected several times by arsenic, 158—Employment of rectangular flaps in amputations, ib.—Rheumatic fever for the ninth time, associated with pericarditis and chorea; fatal result, 283—Retention of urine from stricture temporarily relieved by opium; subsequent puncture of the bladder through the rectum; recovery, 438

St. GEORGE'S HOSPITAL.—Supposed thoracic aneurism, 108—A fine glass tube in the bladder of a boy; removal by lithotomy three years after, 185—Malignant tumour of the arm after fracture; amputation at the shoulder-joint, 317—Wound of the palm of the hand and superficial palmar arch; ligature of the radial and brachial arteries; amputation of the arm; pyæmia; recovery, 506—Sequel to the case of wound of the palm of the hand, for which amputation was resorted to, 559

St. MARY'S HOSPITAL.—Penetrating wound of the knee-joint in a girl, with escape of synovial fluid; successful treatment by irrigation, 31—Cases of malarioid remittent fever in children, 184—Painters' paralysis treated by sulphur baths, 185—Recovery from an attack of pyæmia in a case of bronchitis; relaxation of the sacral bones and rupture of the perinæum, 340—Stricture in the sigmoid flexure; constipation for forty-one days, relieved by opening the colon behind the peritoneum; death from perforation above the seat of the stricture, 388—Cases of complicated malarioid remittent fever, 413 — Treatment of varicose veins by blistering; removal of an hæmatic cyst from the breast of the same patient, 507

St. THOMAS'S HOSPITAL.—Recent axillary aneurism in a healthy man; deligation of the subclavian artery in the third part of its course, 54—Sequel to the case of axillary aneurism in which ligature of the subclavian artery was performed, 158—Chorea associated with hysteria, followed by temporary dementia, 261 — Cancer of liver, peritoneum, kidney, and supra-renal capsule; fatal result from diarrhœa, 459—Encephaloid cancer of the lung and anterior mediastinum, secondarily affecting the liver, ib.

UNIVERSITY COLLEGE HOSPITAL. — Two cases of old-standing stricture of the urethra, successfully treated by internal urethrotomy, 107 — Vesico-vaginal fistula, cured by Bozeman's operation, 289—Strumous disease of the knee-joint, with deposition of tubercle in the osseous structures; excision; death from erysipelas, 365—Farre's cancerous tubercle of the liver, 458—Long-standing disease of the prostate and bladder; retention of urine to the amount of five pints, 610

WESTMINSTER HOSPITAL.—Epilepsy for thirty-two years in a man, aged forty-four, with discoloration of the skin from nitrate of silver; operation of castration, 81—Compound comminuted fracture of the leg, followed by gangrene; amputation at the knee-joint by rectangular flaps; fatal result, 387—Disease of the spinal cord through caries of the cervical vertebræ, producing a remarkable group of symptoms, 481—Large aneurism of the arch of the aorta; death from syncope, 557

Munificent bequest, 379
Murchison, Dr. C., prevalence of continued fevers in the metropolis and other parts of the United Kingdom during the year 1858, 337
Murray, Mr. G. C. P., needles for metallic sutures, 601
Mushroom pessary, Mr. Bourjeaurd's, 348

N

Nævus, extensive rhinoceros, 32; in the orbit and on the leg, 133
Naphthaline, the use of, in itch, 23
Natural Sciences tripos at the University of Cambridge, 330
Naval medical warrant, 112; the new, 506, 508
——— surgeons, prospects of, 248
Neck, fibro-plastic tumour of the, 610
Necrosis, cases of, 214
Needle, a, mistaken for a splinter of bone, 317
Needles for metallic sutures, 601
Neil, Mr. J. B., inefficacy of bronchotomy in diphtheria, 642
Neligan, Dr. J. M., Medicines, their Uses and Mode of Administration (review), 34
Neuralgia, muriate of ammonia in, 215
New Equitable Assurance Company, report of the eighth annual meeting of the, 297

NEW INVENTIONS.

Improved stethoscope, 10
New pharmaceutical preparations, 162
New medicine bottles for preventing accidental poisoning, 189
Weiss's improved chloroform inhaler, 267
Mr. Bourjeaurd's patent mushroom pessary, 348
Salt's improved chloroform inhaler, 487
Mr. G. Murray's new needle for the wire suture, 514
Mr. Chas. E. Wright's Nursing Apparatus, 632

New Medical Act, the, and quackery, 307
——— Military Medical School, the, 277
——— York quarantine imbroglio, 350, 373
Newlands, Mr. J., Liverpool, Past and Present, in relation to Sanitary Operations (review), 614
Newham, Dr. T., "a fever village," 411
Newspaper-touting by professional men, 60
Nightingale, Miss Florence, precarious health of, 575
Nisbet, Mr. W., remarks on cupping, 45
Nitrate of silver stains, 279
Noble, Dr., on army sanitary reform, 473
Northcote, a Manual of Qualitative Chemical Analysis (review), 33
North London Medical Society, election of officers for 1859, 278
Norwich board of guardians, the, and the lunacy commissioners, 277, 302
Nottingham, attempt to poison a family in, 600
Nourse, Mr. W. E. C., report of a case of prolapsus uteri, 81; registration of prevalent diseases, 370; report of a case of acute spinal meningitis, 554
Nuisance, a, to be felt if not seen, 636
Nursing, new apparatus for, 632

O

Obie, Mr. H., wound of the palmar artery, treated successfully by pressure on the brachial, 553
OBITUARY.—Dr. Lever, 22, 75; John H. Eddowes, Esq., M.R.C.S., 22; Dr. William Cruikshank, Deputy Inspector-General of Hospitals, ib.; Dr. Cotton, 47; Sir Jas. Pitcairn, 100; Dr. J. Scott, ib., 152; Edward Langley, Esq., 204; W. Baker, Esq., 229; W. J. Broderip, Esq., 254; Dr. Alex. Munro, 331; Dr. J. Woodroffe, ib.; Dr. R. M. Glover, 405; Booth Eddison, Esq., 429; P. Mackey, Esq., 600
Obstetric practice, 219
Obstetrical Society, election of new fellows, 150
Œdema, peculiar, 550
Œsophagus, stricture of the, in an aged man, 185; stricture of the, in a child, from swallowing a corrosive fluid, 317; stricture of the, from carcinoma, 330; carcinomatous stricture of the, 391
Ogilvie, Dr. G., the Master-Builder's Plan, or the Principles of Organic Architecture as indicated in the Typical Forms of Animals (review), 189
Ogle, Dr. J. W., on a case in which the operation of castration was resorted to for the cure of epilepsy, 156
Ogston, Mr. F., Syllabus of Lectures on Medical Logic, delivered in Marischal College, Aberdeen (review), 34
Oidium fungus, appearance of, in the vineyards of the Gironde, 640
Oliver, Mr. S., wound of the palm, arrest of inflammation by compression, 276
Opium, the druggists' sale of, and poisoning at Sheffield, 74; in epilepsy, 401
"Organic Vibrator," the, and the quack, 333
Organs of generation, description of, of an hermaphrodite sheep, 141
Orridge, Mr. B. B., medical assistants, 76
Os calcis and scaphoid, dislocation of the, 141; ulceration of the, 368; extensive caries of the, 387
Ovarian disease, 318; five cases of, in three of which ovariotomy was performed successfully, 186
——— or abdominal sound, a description of an, 361
Ovariotomy, on childbirth after, 143
Ovary, tumours of the, 133; cystic disease of the, on a new method of examination of the tumour in, 205
Owen, Professor, election of, as foreign member of the Academy of Sciences, Paris, 524
Oxford University, lectures on human anatomy and physiology at, 150
Ozone in the Crimea, observations on, 34; on, 346

P

Pain, on the importance of, as a symptom of disease, 539
Painters' paralysis treated by sulphur baths, 184
Palatine arches, tumour in the, 439
Palm, wound of the, arrest of inflammation by compression, 276
Palmar arch, wound of the, 506
——— artery, wound of the, treated successfully by pressure on the brachial, 553
Pancreas, on an imperfectly-known function of the, 209; some remarks upon the criticisms that have recently been passed upon the digestion of albuminous bodies by the, 605
Paper-hangings, arsenical, and the mode in which they produce noxious effects on health, 4, 70
Paracentesis thoracis with a newly-invented canula and trocar, 186
Paragraph, a degrading, 306
Paralysis, on the treatment of, by the combined aid of the continuous galvanic current and localized galvanism, 613
Paraphymosis, a new way of reducing, 563
Paris, new professors at the Faculty of Medicine of, 46; an English lady learning hospital nursing in, 100; pulling down of the Hôtel Dieu in, ib.; death from the inhalation of chloroform in, 150; cancer-curing in, 326; the new chair of the history of medicine and surgery at the Faculty of, 394; medical faculty, the elderly professors of the, 404; suppression of illegal practice in, 451; suicide of a medical practitioner in, 525; the psychiatric physicians of the hospitals of, 575; anti-homœopathic festival in, 599
Park, Mr. J. S., novel substitute for a female catheter, 277
Parliament, medical representatives in, 87
Parliamentary intelligence, 176
Parrott, Mr. T. M., obstetric practice, 219
Pathological Society of London (see Medical Societies); election of office-bearers for 1859, 45
——— specimens, query relative to, 576
Paton, Mr. R., professional etiquette, 147
Pelvi-peritonitis, on, and its relations to uterine pathology, 367
Pemberton, Mr. O., Observations on the History, Pathology, and Treatment of Cancerous Diseases (review), 33
Pemphigus, chronic, recurrence of, after treatment by arsenic, 158
Perchloride of iron, injection of the concentrated solution of, into the sac of an aneurism, 500
Pericarditis, on, and effusion into the pericardium 383
Persia, the physician of the Shah of, 178
Peru, small feet in, 525
Pestilent folly, a, 64
Pharmaceutical preparations, new, 162
——— advances, 525
Phenomenon, extraordinary, 404
Phosphorus, an antidote for, 135
Photographic Chemistry, a Manual of, including the Practice of the Collodion Process (review), 219
Photography in medical science, 89
———, the application of, to medicine, 594
Physic, free-trade in, 518
Physical recreation, 545
Physiologie, Traité de (review), 590
Physiology of hearing, contributions to the, 236, 259
———, popular lectures on, 599
Pidduck, Dr. J., adulteration of drugs, 153
Pigmentum album, on the use of, 610
Piliferous ovarian cyst, 319
Pirogoff's operation, practical clinical remarks on, 577; on the modification of, 638
Pirrie, Dr. W., on insolatio, sun-stroke, or coup-de-soleil, 505, 533
Pitman, Dr., case under the care of, 108
Placenta prævia, cases illustrating the physiology and treatment of, 392
Plombière, the mineral waters of, 203
Poisoning, by accident, 38; another death from, 46; by chloride of barium, 211; suspected, of a female, by arsenic, 473
Poisons, sale of, 176, 194; adulteration of food and sale of, 74, 99; the permanence of, 399
Pollock, Dr., case under the care of, 558
Polypi, nasal, 215
Polypus of the uterus, 511
Polytechnic Institution, fatal accident at the, 46, 125; sale of the, 575
Poor, the dwellings of the, 371
Poor-law medical officers, 224; registration of, 35, 40; deputation of, to the Poor-law board, 178; of the Boston and Lewisham Unions, meetings of the, 95
